

St Margaret's CE Junior School

Schools Financial Benchmarking

Strategy adopted in draft form: October 2020
Formally agreed by Governing Body: 11th March 2021

Date for review: March 2022

Introduction

St. Margaret's C.E. Junior School run our financial benchmarking reports annually for review by the governing board.

The school's financial data e.g. income and expenditure, is compared to similar schools or trust's in England.

This is mirrored in the Schools Financial Value Standard, which is also reviewed by the governors annually.

Please follow the link below for St. Margaret's C.E. Junior School's benchmarking data:

<https://schools-financial-benchmarking.service.gov.uk/school/detail?urn=124268&openOnly=true>

Care should be taken when interpreting the data. It shows the position of a school relative to others; it doesn't explain why this is. There may be good reasons for a school to have high or low figures. The key aspect is that those involved in budget setting review the differences and consider the reasons for them.

For further information, refer to the [guidance on interpreting the charts](#).

The data on the site is for maintained schools and academies in England.

It's based on schools' Consistent Financial Reporting (CFR) returns and academies' accounting returns.
