Impact of COVID-19

- Elements of this plan became difficult to achieve due to the restrictions and issues created by COVD-19 during the year.
- We needed to prioritise our attention on key educational areas such as delivering effective remote learning and managing the various outbreaks and resultant problems. In addition, supply chains suffered during 2020 and 2021, leading to a range of issues. We were therefore unable to proceed with some plans because we could not facilitate these with suppliers. We are planning to spend the carry forward funding during 2021-22, as per the new plan. **Approximate carry forward = £10000.**
- We hope to gain some additional funding to make a sports court area a stronger possibility.
