

St. Margaret's C.E. Junior School

Maths Progression Overview

	Year 3	Year 4	Year 5	Year 6
Place Value	<ul style="list-style-type: none"> Recognise the place value of each digit in a three-digit number (hundreds, tens, ones) Compare and order numbers up to 1,000 	<ul style="list-style-type: none"> Recognise the place value of each digit in a four-digit number Order and compare numbers beyond 1000 Round any number to the nearest 10, 100 or 1000 	<ul style="list-style-type: none"> Read, write, order and compare numbers up to 1 000 000 and determine the value of each digit Round any number up to 1 000 000 to the nearest 10, 100, 1000, 10 000 and 100 000 	<ul style="list-style-type: none"> Read, write, order and compare numbers up to 10 000 000 and determine the value of each digit Round any whole number to a required degree of accuracy Solve number and practical problems that involve all of the above
Counting	<ul style="list-style-type: none"> Count from 0 in multiples of 4, 8, 50 and 100 Find 10 or 100 more or less than a given number 	<ul style="list-style-type: none"> Count in multiples of 6, 7, 9, 25 and 1000 Find 1000 more or less than a given number 	<ul style="list-style-type: none"> Count forwards or backwards in steps of powers of 10 for any given number up to 1 000 000 Interpret negative numbers in context, count forwards and backwards with positive and negative whole numbers, including through zero 	<ul style="list-style-type: none"> Use negative numbers in context, and calculate intervals across zero
Identifying, Reading & Representing Number	<ul style="list-style-type: none"> Identify, represent and estimate numbers using different representations Read and write numbers up to 1000 in numerals and in words <i>Tell and write the time from an analogue clock, including using Roman numerals from I to XII, and 12-hour and 24-hour clocks (copied from Measurement)</i> 	<ul style="list-style-type: none"> Identify, represent and estimate numbers using different representations Read Roman numerals to 100 (I to C) and know that over time, the numeral system changed to include the concept of zero and place value 	<ul style="list-style-type: none"> Read Roman numerals to 1000 (M) and recognise years written in Roman numerals Recognise and use square numbers and cube numbers, and the notation for squared (²) and cubed (³) 	
Addition & Subtraction	<ul style="list-style-type: none"> Add multiples of 10, 100 and 1,000 to a number (up to 9,999) 	<ul style="list-style-type: none"> Add & subtract multiples of 10, 100 and 1,000 to a number (up to 9,999) 	<ul style="list-style-type: none"> Add & subtract numbers mentally with increasingly large numbers 	<ul style="list-style-type: none"> Perform mental calculations, including with mixed operations and

(calculations)	<ul style="list-style-type: none"> • Add & subtract numbers mentally including a 3 digit number & ones/tens/100s • Add numbers up to 3 digits using formal method of column addition 	<ul style="list-style-type: none"> • Add & subtract numbers up to 4 digits using formal method of column addition • Add & subtract with decimals (up to tenths and hundredths) 	<ul style="list-style-type: none"> • Add & subtract whole numbers with more than 4 digits, including using formal written methods 	large numbers
Addition & Subtraction (problem solving)	<ul style="list-style-type: none"> • Estimate the answer to a calculation and use inverse operations to check answers • Solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction 	<ul style="list-style-type: none"> • Estimate and use inverse operations to check answers to a calculation • Solve addition and subtraction two-step problems in context, deciding which operations and methods to use and why 	<ul style="list-style-type: none"> • Use rounding to check answers to calculations and determine, in the context of a problem, levels of accuracy • Solve addition & subtraction multi-step problems in contexts, deciding which operations and methods to use and why 	<ul style="list-style-type: none"> • Solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why • Solve problems involving addition, subtraction, multiplication and division
Multiplication & Division (calculations)	<ul style="list-style-type: none"> • Recall and use multiplication and division facts for the 3, 4 and 8 multiplication tables • Write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for two-digit numbers times one-digit numbers, using mental methods • Progress to formal written methods calculations as above 	<ul style="list-style-type: none"> • Recall multiplication and division facts for multiplication tables up to 12×12 • Use place value, known and derived facts to multiply and divide mentally, including: multiplying by 0 and 1; dividing by 1; multiplying together three numbers • Recognise and use factor pairs and commutativity in mental calculations • Multiply two-digit and three-digit numbers by a one-digit number using formal written layout 	<ul style="list-style-type: none"> • Identify multiples and factors, including finding all factor pairs of a number, and common factors of two numbers • Know and use the vocabulary of prime numbers, prime factors and composite (non-prime) numbers • Establish whether a number up to 100 is prime and recall prime numbers up to 19 • Multiply and divide numbers mentally drawing upon known facts • Multiply and divide whole numbers and those involving decimals by 10, 100 and 1000 • Multiply numbers up to 4 digits by a one- or two-digit number using a formal written method, including long multiplication for two-digit numbers • Divide numbers up to 4 digits by a one-digit number using the formal written method of short division and interpret remainders appropriately for the context 	<ul style="list-style-type: none"> • Identify common factors, common multiples and prime numbers • Perform mental calculations, including with mixed operations and large numbers
Multiplication & Division	<ul style="list-style-type: none"> • Solve problems, including missing number problems, involving multiplication and division, 	<ul style="list-style-type: none"> • Solve problems involving multiplying and adding, including using the distributive law to multiply two digit 	<ul style="list-style-type: none"> • Solve problems involving multiplication and division including using their knowledge of factors and 	<ul style="list-style-type: none"> • Multiply multi-digit numbers up to 4 digits by a two-digit whole number using the formal written method of

(problem solving)	including positive integer scaling problems and correspondence problems in which n objects are connected to m objects.	numbers by one digit, integer scaling problems and harder correspondence problems such as n objects are connected to m objects	<p>multiples, squares and cubes</p> <ul style="list-style-type: none"> • Solve problems involving addition, subtraction, multiplication and division and a combination of these, including understanding the meaning of the equals sign • Solve problems involving multiplication and division, including scaling by simple fractions and problems involving simple rates 	<p>long multiplication</p> <ul style="list-style-type: none"> • Divide numbers up to 4 digits by a two-digit whole number using the formal written method of long division, and interpret remainders as whole number remainders, fractions, or by rounding, as appropriate for the context • Divide numbers up to 4 digits by a two-digit number using the formal written method of short division where appropriate, interpreting remainders according to context • Use their knowledge of the order of operations to carry out calculations involving the four operations • Solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why • Solve problems involving addition, subtraction, multiplication and division • Use estimation to check answers to calculations and determine, in the context of a problem, an appropriate degree of accuracy
Fractions	<ul style="list-style-type: none"> • Count up and down in tenths; • Recognise that tenths arise from dividing an object into 10 equal parts and in dividing one-digit numbers or quantities by 10 • Compare and order unit fractions, and fractions with the same denominators • Recognise and show, using diagrams, equivalent fractions with small denominators • Recognise, find and write fractions of a discrete set of objects: unit fractions and non-unit fractions 	<ul style="list-style-type: none"> • Count up and down in hundredths; • Recognise that hundredths arise when dividing an object by one hundred and dividing tenths by ten • Recognise and show, using diagrams, families of common equivalent fractions • Solve problems involving increasingly harder fractions to calculate quantities, and fractions to divide quantities, including non-unit fractions where the answer is a whole number • Add and subtract fractions with the 	<ul style="list-style-type: none"> • Recognise mixed numbers and improper fractions and convert from one form to the other and write mathematical statements > 1 as a mixed number • Compare and order fractions whose denominators are all multiples of the same number • Identify, name and write equivalent fractions of a given fraction, represented visually, including tenths and hundredths • Add and subtract fractions with the same denominator and denominators 	<ul style="list-style-type: none"> • Use common factors to simplify fractions • Use common multiples to express fractions in the same denomination • Compare and order fractions, including fractions > 1 • Add and subtract fractions with different denominators and mixed numbers, using the concept of equivalent fractions • Multiply simple pairs of proper fractions, writing the answer in its simplest form • Divide proper fractions by whole

	<p>with small denominators</p> <ul style="list-style-type: none"> Recognise and use fractions as numbers: unit fractions and non-unit fractions with small denominators Add and subtract fractions with the same denominator within one whole e.g. $\frac{5}{7} + \frac{1}{7} = \frac{6}{7}$ Solve problems using all fraction knowledge 	<p>same denominator</p> <ul style="list-style-type: none"> Solve simple measure and money problems involving fractions and decimals to two decimal places 	<p>that are multiples of the same number</p> <ul style="list-style-type: none"> Multiply proper fractions and mixed numbers by whole numbers, supported by materials and diagrams Solve problems which require knowing percentage and decimal equivalents of $\frac{1}{2}$, $\frac{1}{4}$, $\frac{1}{5}$, $\frac{2}{5}$, $\frac{4}{5}$ and those fractions with a denominator of a multiple of 10 or 25 	<p>numbers</p> <ul style="list-style-type: none"> Solve problems which require answers to be rounded to specified degrees of accuracy Recall and use equivalences between simple fractions, decimals and percentages, including in different contexts
Decimals		<ul style="list-style-type: none"> Recognise and write decimal equivalents of any number of tenths or hundredths Recognise and write decimal equivalents to $\frac{1}{4}$, $\frac{1}{2}$ and $\frac{3}{4}$ Find the effect of dividing a one- or two-digit number by 10 and 100, identifying the value of the digits in the answer as ones, tenths and hundredths Round decimals with one decimal place to the nearest whole number Compare numbers with the same number of decimal places up to two decimal places Solve simple measure and money problems involving fractions and decimals to two decimal places 	<ul style="list-style-type: none"> Read and write decimal numbers as fractions Recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents Round decimals with two decimal places to the nearest whole number and to one decimal place Read, write, order and compare numbers with up to three decimal places Solve problems involving number up to three decimal places Solve problems which require knowing percentage and decimal equivalents of $\frac{1}{2}$, $\frac{1}{4}$, $\frac{1}{5}$, $\frac{2}{5}$, $\frac{4}{5}$ and those fractions with a denominator of a multiple of 10 or 25 	<ul style="list-style-type: none"> Associate a fraction with division and calculate decimal fraction equivalents [for example, 0.375] for a simple fraction Identify the value of each digit in numbers given to three decimal places Multiply and divide numbers by 10, 100 and 1000 giving answers up to three decimal places Multiply one-digit number with up to two decimal places by whole numbers Use written division methods in cases where the answer has up to two decimal places
Percentages			<ul style="list-style-type: none"> Recognise the per cent symbol (%) and understand that per cent relates to 'number of parts per hundred', and write percentages as a fraction with denominator 100, and as a decimal 	<ul style="list-style-type: none"> Solve problems involving the calculation of percentages [for example, of measures, and such as 15% of 360] and the use of percentages for comparison
Ratio & Proportion				<ul style="list-style-type: none"> Solve problems involving the relative sizes of two quantities where missing values can be found by using integer multiplication and division facts Solve problems involving similar shapes where the scale factor is known or can be found Solve problems involving unequal

				sharing and grouping using knowledge of fractions and multiples
Algebra				<ul style="list-style-type: none"> • Use simple formulae • Generate and describe linear number sequences • Express missing number problems algebraically • Find pairs of numbers that satisfy an equation with two unknowns • Enumerate possibilities of combinations of two variables
Measurement	<ul style="list-style-type: none"> • Measure, compare, add and subtract: lengths (m/cm/mm); mass (kg/g); volume/capacity (l/ml) • Measure the perimeter of simple 2-D shapes • Add and subtract amounts of money to give change, using both £ and p in practical contexts 	<ul style="list-style-type: none"> • Convert between different units of measure • Estimate, compare and calculate different measures, including money in pounds and pence • Measure and calculate the perimeter of a rectilinear figure (including squares) in centimetres and metres • Find the area of rectilinear shapes by counting squares 	<ul style="list-style-type: none"> • Convert between different units of metric measure • Understand and use approximate equivalences between metric units and common imperial units such as inches, pounds and pints • Estimate volume and capacity • Measure and calculate the perimeter of composite rectilinear shapes in centimetres and metres • Calculate and compare the area of rectangles (including squares), and including using standard units, square centimetres (cm²) and square metres (m²) and estimate the area of irregular shapes • Use all four operations to solve problems involving measure [for example, length, mass, volume, money] using decimal notation, including scaling 	<ul style="list-style-type: none"> • Solve problems involving the calculation and conversion of units of measure, using decimal notation up to three decimal places where appropriate • Use, read, write and convert between standard units, converting measurements of length, mass, volume and time from a smaller unit of measure to a larger unit, and vice versa, using decimal notation to up to three decimal places • Convert between miles and kilometres • Recognise that shapes with the same areas can have different perimeters and vice versa • Recognise when it is possible to use formulae for area and volume of shapes • Calculate the area of parallelograms and triangles • Calculate, estimate and compare volume of cubes and cuboids using standard units, including cubic centimetres (cm³) and cubic metres (m³), and extending to other units
Time	<ul style="list-style-type: none"> • Tell and write the time from an analogue clock, including using 	<ul style="list-style-type: none"> • Convert between different units of measure (e.g. Hours to minutes) 	<ul style="list-style-type: none"> • Solve problems involving converting between units of time 	

	<p>Roman numerals from I to XII, and 12-hour and 24-hour clocks</p> <ul style="list-style-type: none"> • Estimate and read time with increasing accuracy to the nearest minute; record and compare time in terms of seconds, minutes and hours; use vocabulary such as o'clock, a.m./p.m., morning, afternoon, noon and midnight • Know the number of seconds in a minute and the number of days in each month, year and leap year • Compare durations of events 	<ul style="list-style-type: none"> • Read, write and convert time between analogue and digital 12- and 24-hour clocks • Solve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks to days 		
Shape & Geometry	<ul style="list-style-type: none"> • Identify horizontal and vertical lines and pairs of perpendicular and parallel lines • Draw 2-D shapes • Make 3-D shapes using modelling materials • Recognise 3-D shapes in different orientations and describe them • Recognise angles as a property of shape or a description of a turn • Identify right angles, recognise that two right angles make a half-turn, three make three quarters of a turn and four a complete turn • Identify whether angles are greater or less than right angle 	<ul style="list-style-type: none"> • Compare and classify geometric shapes, including quadrilaterals and triangles, based on properties and sizes • Identify lines of symmetry in 2-D shapes presented in different orientations • Complete a simple symmetric figure with respect to a specific line of symmetry • Identify acute and obtuse angles and compare and order angles up to two right angles by size • Describe positions on a 2-D grid as coordinates in the first quadrant • Describe movements between positions as translations of a given unit to the left/right and up/down • Plot specified points and draw sides to complete a given polygon 	<ul style="list-style-type: none"> • Use the properties of rectangles to deduce related facts and find missing lengths and angles • Distinguish between regular and irregular polygons based on reasoning about equal sides and angles • Identify 3-D shapes, including cubes and other cuboids, from 2-D representations • Know angles are measured in degrees: estimate and compare acute, obtuse and reflex angles • Draw given angles, and measure them in degrees (°) • Identify angles at a point and one whole turn (total 360°); at a point on a straight line and ½ a turn (total 180°) • Identify other multiples of 90° • Identify, describe and represent the position of a shape following a reflection or translation, using the appropriate language, and know that the shape has not changed 	<ul style="list-style-type: none"> • Illustrate and name parts of circles, including radius, diameter and circumference and know that the diameter is twice the radius • Draw 2-D shapes using given dimensions and angles • Compare and classify geometric shapes based on their properties and sizes • Recognise, describe and build simple 3-D shapes, including making nets • Find unknown angles in any triangles, quadrilaterals, and regular polygons • Recognise angles where they meet at a point, are on a straight line, or are vertically opposite, and find missing angles • Describe positions on the full coordinate grid (all four quadrants) • Draw and translate simple shapes on the coordinate plane, and reflect them in the axes
Statistics	<ul style="list-style-type: none"> • Interpret and present data using bar charts, pictograms and tables 	<ul style="list-style-type: none"> • Interpret and present discrete and continuous data using appropriate 	<ul style="list-style-type: none"> • Complete, read and interpret information in tables, including 	<ul style="list-style-type: none"> • Interpret and construct pie charts and line graphs

	<ul style="list-style-type: none"> Solve one-step and two-step questions [for example, 'How many more?' and 'How many fewer?'] using information presented in scaled bar charts and pictograms and tables 	<p>graphical methods, including bar charts and time graphs</p> <ul style="list-style-type: none"> Solve comparison, sum and difference problems using information presented in bar charts, pictograms, tables and other graphs 	<p>timetables</p> <ul style="list-style-type: none"> Solve comparison, sum and difference problems using information presented in a line graph 	<ul style="list-style-type: none"> Calculate and interpret the mean as an average Use pie charts and line graphs to solve problems
Mathematical Vocabulary	<ul style="list-style-type: none"> Read and spell mathematical vocabulary correctly and confidently, using their growing word reading knowledge and their knowledge of spelling 	<ul style="list-style-type: none"> Read and spell mathematical vocabulary correctly and confidently, using their growing word reading knowledge and their knowledge of spelling 	<ul style="list-style-type: none"> Read, spell and pronounce mathematical vocabulary correctly 	<ul style="list-style-type: none"> Read, spell and pronounce mathematical vocabulary correctly Illustrate and name parts of circles, including radius, diameter and circumference and know that the diameter is twice the radius
